MEMORANDUM FOR DIVISION COMMANDERS

January 3, 1997

SUBJECT: District Restructuring

1. Reference ER 10-1-2, Organization and Functions U.S. Army Corps of Engineers Divisions and Districts, dated 1 May 1996.
2. ER10-1-2 permits you latitude in restructuring Districts under your command. The status of Congressionally directed Division restructuring is at best questionable. Consequently, we are very uneasy that District restructuring actions not be taken without understanding fully the environment in which we will have to function in the immediate and mid-term future.
3. The Chief has directed a review of District structures, boundaries, Centers of Expertise/Excellence, etc. In view of these reviews and the uncertainty of Congressional action on Division restructuring, refrain from taking any District restructuring actions now authorized under ER10-1-2 without prior consultation with the Chief.
4. Please acknowledge your personal receipt of this E-Mail message.
